PROOF OF PUBLICATION

STATE OF UTAH }
County of Tooele } ss.

I, Scott C. Dunn, being first duly sworn, depose and say that I am the Publisher of the Tooele Transcript-Bulletin, a twice-weekly newspaper of general circulation published each Tuesday and Thursday at Tooele City, Tooele County, Utah; that the notice attached hereto and which is a part of the proof of publication of

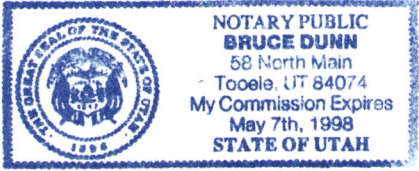

Notice of Tentative Decision to
Approve No. M/045/028

was published in said newspaper for one issue(s), the first publication having been made on the 20th day of December, 19 94, and the last on the 20th day of December, 19 94; that said notice was published in the regular and entire issue of every Tuesday number of the paper during the period and time of publication, and the same was published in a newspaper proper and not in a supplement.

Scott C. Dunn

Subscribed and sworn to me this 21st day of December, 19 94.

Notary Public

Notice of Tentative Decision to Approve No. M/045/028
Before the Division of Oil, Gas and Mining Department of Natural Resources, State of Utah
In the Matter of Tentative Decision to Approve the Mining and Reclamation Plan for Grantsville Quarry, Tooele County, Utah
THE STATE OF UTAH TO ALL OPERATORS, TAKERS OF PRODUCTION, MINERAL AND ROYALTY OWNERS, AND PARTICULARLY ALL PERSONS INTERESTED IN SECTIONS 25 AND 36, TOWNSHIP 1 SOUTH, RANGE 7 WEST, SLBM, TOOELE COUNTY, UTAH.
Notice is hereby given by the Division of Oil, Gas and Mining of its tentative decision to approve Chemical Lime Company of Arizona's (Company) Mining and Reclamation Plan for their Grantsville Limestone Quarry and lime processing plant. Mining activities will effect approximately 77 acres of private and State leased lands in portions of Sections 25 and 36, Township 1 South, Range 7 West, SLBM, Tooele County, Utah. The Company will continue mining operations, employing the following mining and reclamation techniques:
During Operations
This is an existing open-pit limestone quarrying operation. The operator drills and blasts the limestone, crushes it to appropriate size, then stockpiles it for further onsite processing/refining into lime. Reject fines will be stockpiled for reclamation of the quarried areas. Concurrent reclamation will take place on areas no longer needed for operations.
Following Operations
Plant facilities and equipment will be decommissioned, removed and salvaged. Building foundations will be broken up and buried, or hauled away to an approved landfill. Private powerlines, poles, natural gas pipelines, waterlines and telephone lines will be removed. Regrading will be done to blend in with surrounding landscape and revegetated. The person representing the Company is Mr. Russell Curtis, P.O. Box 537, Grantsville, Utah 84029; Phone (801) 884-3972. Chemical Lime Company of Arizona is fulfilling obligations under the Utah Mined Land Reclamation Act of 1975, Utah Code Ann. §40-8-18. Any person or agency aggrieved by this tentative decision to issue approval is hereby requested to submit written protest within thirty (30) days of the time of publication to: Lowell Braxton, Associate Director of Mining, Division of Oil, Gas and Mining, 355 West North Temple, 3 Triad Center, Suite 350, Salt Lake City, Utah 84180-1203, setting forth factual reasons for the complaint. If no responsive written protests are received by the Division within 30 days after the last date of publication, the tentative decision of the Division will be final.
DATED THIS 12th day of December, 1994
